

- Download Convene for [Android](#) or [iOS](#)
- Sign up with Facebook, Twitter, LinkedIn or Google
- Enter the event code SHOWINGUPNOW

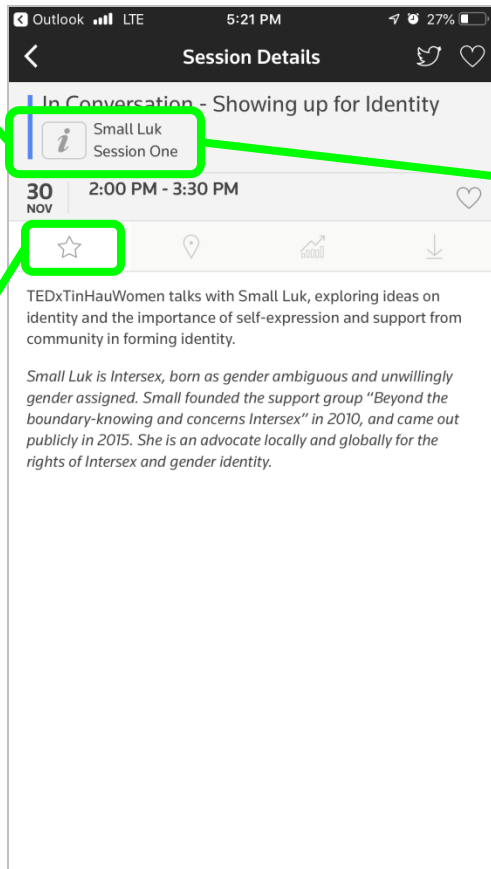

Tap on the information icon for key features

Tap to filter by Sessions

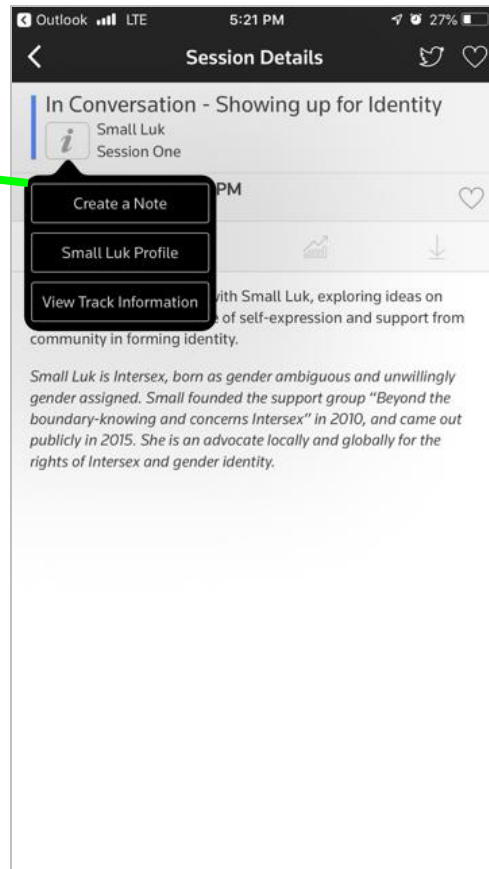

Tap on a session for details

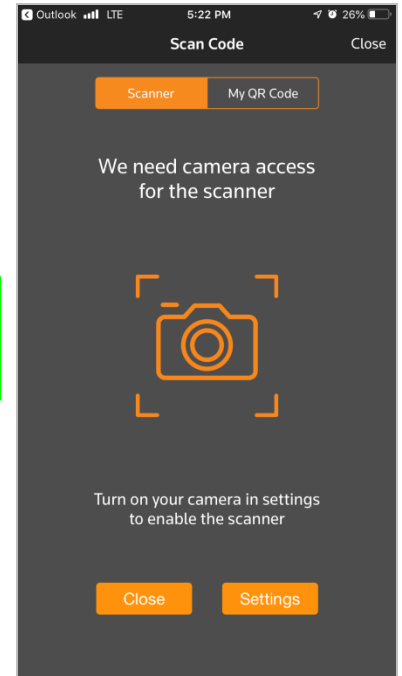

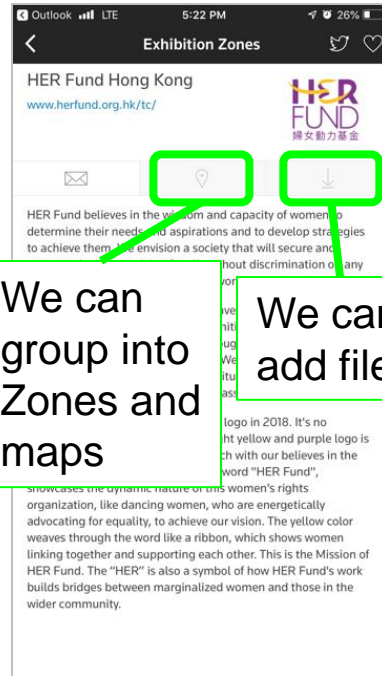

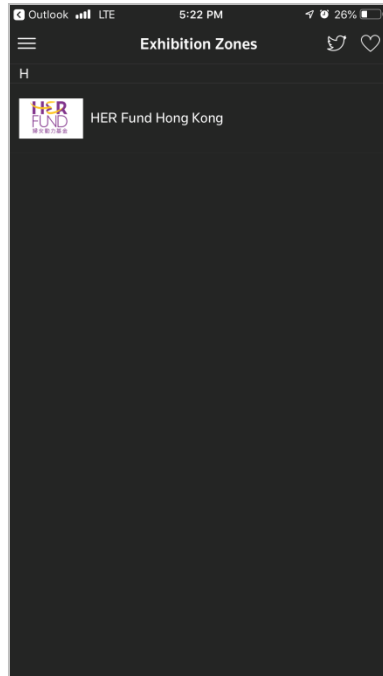

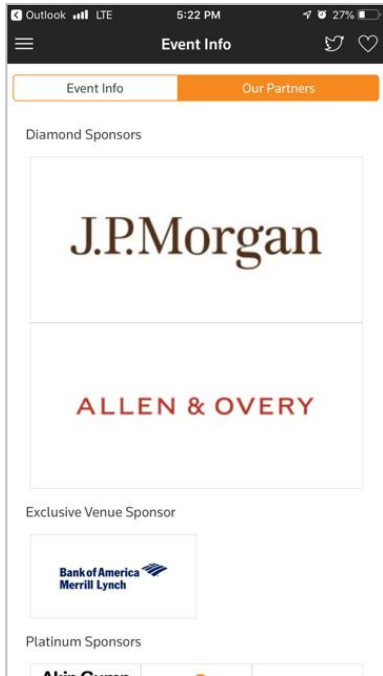

Tap on the information icon to read speaker bios

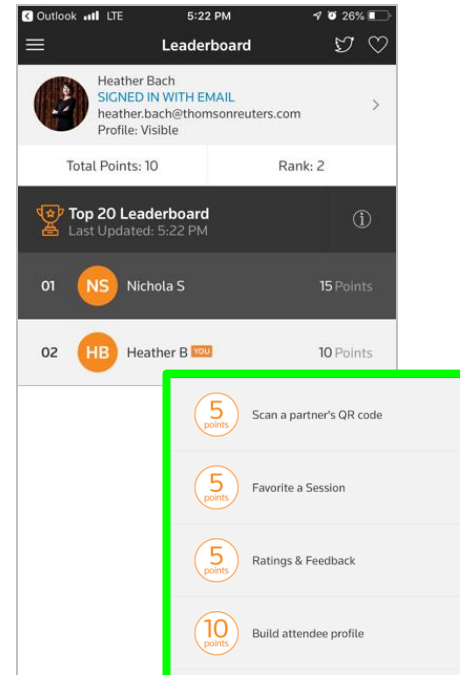

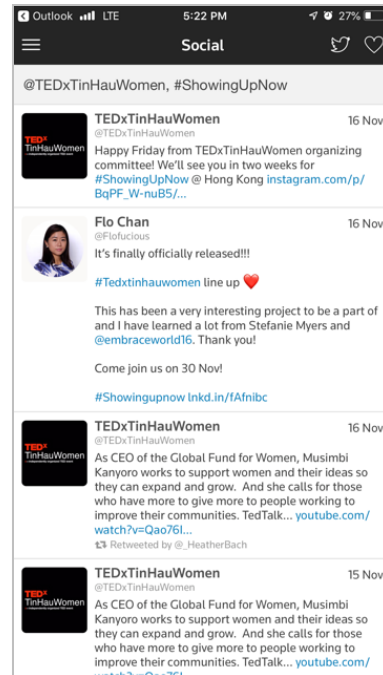

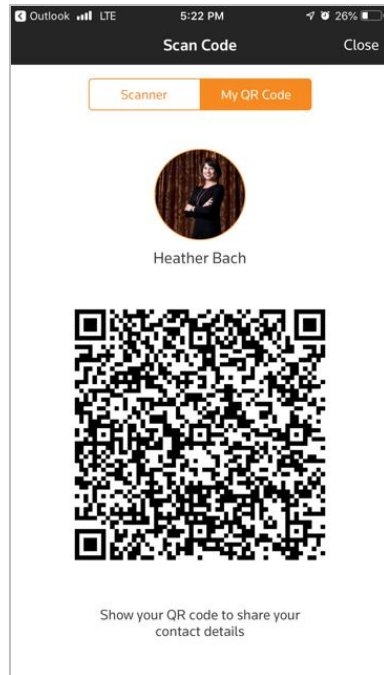

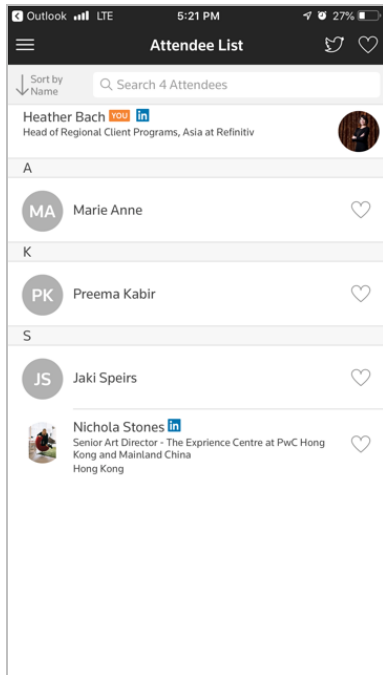

Rate talks by tapping on the star icon after each talk finishes

- Learn more about our partners and local exhibitors
- Individual QR codes can be downloaded for each partner/vendor
- Attendees can share contact details with local exhibitors & tracks leads

- Connect with those you meet from the Attendee List
- Tweet about the event directly from Convene
- Gamification
- Push notifications

- Push notifications (**brevity is key!!!**)

The screenshot displays the Thomson Reuters Convene Manager interface. On the left is a blue navigation sidebar with the following items: "Matt's First Demo Event" (with a hamburger menu icon), "EVENT DETAILS" (with a list icon), "VENUE" (with a location pin icon), "FAQs" (with a question mark icon), "ATTENDEES" (with a group of people icon), "SPEAKERS" (with a person icon), "SESSIONS" (with a clock icon), "TRACKS" (with a group of people icon), "PARTNERS" (with a calendar icon), and "COMMUNICATION" (with a speech bubble icon). The top header shows the Thomson Reuters logo and "CONVENE MANAGER" with a dropdown arrow. Below the header, the "COMMUNICATION" section is active. The main content area is titled "PUSH NOTIFICATION" and contains the text: "Push Notifications are great for sending news, reminders and updates about your event, sessions and speakers straight to an attendees device. Note that Push Notifications are only sent to opted-in attendees." Below this text is a large, empty white text input field. At the bottom right of the input area, it says "140 characters left" and a blue "SEND" button.

Things I still need:

- All sponsor, partner and charity information (full list, missing logos, boilerplates, any attachments)
- Venue map and any additional exhibition zone maps
- Confirmation on using vendor QR codes and if so, who to include
- Confirmation on using function to rate speakers
- Prize for Gamification winner (Only one? Top three?)
- Suggestions for any key push notifications
- Final agenda (order & times)
- Anything else we are inspired to include?
